1. AO = Administrative Order closed after compliance with the requirements of the order; APO = Administrative Penalty Order requiring compliance with environmental regulations and assessing a penalty; CACO = Consent Agreement and Order requiring compliance with environmental regulations and/or assessing a penalty; CJ = Civil Judicial Case with the Department of Justice, Self Disclosure under EPA's Audit Policy

2. Proposed unless (f) for Final

Narrative Summary:

Ennis Agri-Tech at Ennis, Tx: EPA filed a simultaneous Complaint/CACO against Ennis Agri-Tech, Inc. The Complaint/CACO resolved the allegations of the Complaint for violations of the Resource Conservation and Recovery Act (RCRA). RCRA violations included storing hazardous waste without a permit or interim status and without meeting the permit exemption requirements. All violations were determined as part of a January 28, 1998, Compliance Evaluation

Inspection (CEI), and subsequent Requests for Information. The Respondent agreed to pay \$12,100 for the alleged violations in the Complaint/CACO.

Northland, A Scott Fetzer Company, El Paso, TX: A consent agreement and final order was filed against Northland, a Scott Fetzer Company for violations of the Resource Conservation & Recovery Act. The complaint was filed on March 31, 2000. Northland declined the opportunity to perform a Supplemental Environmental Project. Northland is the Importer of Record for Electrotecnica Del Norte in Mexico. A 3007 Request for Information letter was issued to the facility. The facility failed to have a proper EPA identification number, failed to maintain on-site a copy of Land Disposal Restriction notices and certifications, failed to prepare the TNRCC Foreign Waste Shipment Summary, and failed to prepare the manifest according to the instruction. EPA assessed a civil penalty of \$20,515.

Safety-Kleen Systems, Inc., Denton, TX (TXD077603371): Safety-Kleen is a recycling center that specializes in the recovery and recycling of spent solvents and associated wastes. A Resource Conservation and Recovery Act (RCRA) Permit No. HW-50163 was issued for the facility on August 9, 1994. The permit authorizes the facility to accept and process a wide array of hazardous wastes with no disposal on-site. On September 22, October 1, and October 6, 1998, 6EN-HT staff concluded a Compliance Evaluation Inspection (CEI) at Safety-Kleen. On November 12, 1999, EPA conducted a follow-up CEI and noted the following violations: (1) Treatment and/or storage of hazardous waste without a permit in the day tanks, the debris sorting table, and the fluid recycling service unit, and (2) Failure to control air emissions for containers under subpart CC. On March 28, 2000, EPA issued an Administrative Order assessing a civil penalty of \$1,617,908.00 plus injunctive relief. Safety-Kleen has expressed an interest in performing a Supplemental Environmental Project (SEP). Presently, we are finalizing the details of the SEP and the Consent Agreement and Consent Order.
